LOSE PLUNDER TO SAVE TRAIN

Harry Dunlap, George Foreman, Thomas Pendergrast, Heinry Hart and John Shewbridge, all of Cumberland, were last night held in the sum of $500 each for the action of the grand jury, at Cumberland, Md., charged with stealing about $1,000 worth of brass from the plant of the Cumberland and Potomac Cement Company, at Potomac, about nine miles up the river from Cumberland. Early last Monday morning these men went to the mill which had been closed down for several days, and after forcing their way into the building, stripped the engines and other machinery of all their brass fittings, practically wrecking the plant. They broke into a Baltimore and Ohio Railroad toolhouse and secured a handcar, which they took to the plant and loaded with stolen brass.

While running the car towards Cumberland they saw a passenger train approaching on the same track and, jumping off, threw the car and its contents over the embankment into the river, in order to save their lives and plunder and avoid causing a wreck, which at that point might have thrown the entire train into the river, with awful loss of life. The railroad police and the Cumberland police force took up the case and two of the men were arrested in the theater Wednesday evening. The other three were arrested yesterday morning.

HURRICANE SWEPT FRUIT VESSELS.

The Norwegian fruit steamers Thora and Freke, the last two of four steamers due at Baltimore last Monday with cargoes of fruit from West Indian ports, arrived at their dock yesterday after a thrilling experience in the last hurricane which was so disastrous to shipping. The Thora was the first to arrive, reaching her dock about 9 p. m. She was followed by the Freke which docked at 5:30 p. m.

The masters of both vessels reported a terrible experience battling their way through monster seas, with the wind blowing 100 miles an hour. Both steamers sailed from Jamaica, September 29, and on the morning of October 1 they were being tossed about at the will of the wind. For three days the officers of the fruiters were on the bridges, endeavoring to keep their vessels from foundering.

Capt. Arensen, of the Thora, reported that the air was so thick with spray blown from the crest of the waves that it was impossible to see two ship lengths ahead. One big sea came over the stern of the vessel, disabling the steering gear and carrying overboard many of the deck fittings, which had been lashed fast. Part of the time the vessel was on her beam ends and it was dangerous for any of the crew to move about the deck, and they were ordered into the main saloon and in the sheltered alleyways on the sides, to be safe from the heavy seas, which were washing her decks fore and aft.

Lame Back.

This ailment is usually caused by rheumatism of the muscles of the small of the back, and is quickly cured by applying Chamberlain's Liniment two or three times a day and massaging the parts at each application. For sale by W. F. Creighton & Co. and Richard Gibson.

BROKE ALL DRINKING RECORDS

A New Bedford Dispatch to the Philadelphia Record says that Big Jim Conners and Little Jim Shannon broke all drinking records here one day recently. In two hours they put away, between them, just 20 gallons of hard cider, "and he was still thirsty," said Big Jim, after they had emptied the last jug.

It was that morning, however, that he made the statement. The drinking record went to smash. Big Jim and Little Jim, who are old pals, started fishing. They wound up at a cider mill where cider of last year's seasoning was selling at 25 cents a gallon. And they spent all the money they had with them.

After it was over they tried to put the mill out of business and finally went to sleep in the press. Neither of them is the worst for wear.

Elected!

This is a momentous period in the history of this country—two great parties battling for political supremacy. This is true in no greater degree with parties than with business houses and many times in the bustle and hurrah incident to increasing trade one is apt to represent an article 100 per cent better than it really is. It has been said that "a word to the wise is sufficient," but our experience has taught us that the bulk of the people buying goods today cannot be led by deceptive methods—they have to be shown. We want to say to you that any goods we place our stamp of approval on are just as we represent them. A trial order of any brand we advertise will prove what we say to be true. We want to submit for your consideration this week a few of our medium grades of Whiskies, which we guaranteed will give satisfaction.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

FRIDAY EVENING, OCT. 9, 1908.

THE baseball season having ended it is possible that many of the enthusiast of this game may now give their attention to more important matters. It is well within bounds to state that in very many places in these United States more people were yesterday interested in the game of baseball played in New York to determine the championship than there were in the result of the election of the president of the country. On the previous night it is stated that over ten thousand people camped out near the Polo Grounds in order that they might be ready to enter the gates as soon as they were opened in the morning so eager were they to witness the game. Yesterday two men were killed and many persons were injured during the scramble to secure points of vantage from which to view the game, and in the rush into the field when the last New York batter was put out. A city fireman lost his life by falling from an elevated railroad pillar outside the grounds and an unidentified man either fell or was pushed off the high fence to the right of the main entrance to the grandstand. A list of persons injured cannot be compiled, as the injuries consisted chiefly of sprains and bruises sustained in the crowding to get seats and the small riots that occurred at the conclusion of the game. Throughout the country business in many instances was interfered with while men awaited to learn the result of the game. It can be asked with apprehension, What is to be expected of a people who pay more attention to a baseball game than they do to the vital affairs of their state or country?

MR. BRYAN'S COMMONER editorially and vividly comments today on President Roosevelt's connection with the Harriman contribution of four years ago and the Tennessee coal and iron deal. On the former topic it says:

Prior to election day in 1904 democrats charged that representatives of the special interests were providing the republican party with campaign funds. Mr. Roosevelt hotly denied the accusation, denouncing the democrat who made it as a liar. Later it developed that E H. Harriman had collected $250,000 for the use and benefit of the republican party in that campaign. This money came from Standard Oil officials and others.

Of the steel trust deal the Commoner says:

In October, 1907, it was reported that two officers of the steel trust visited the White House and asked Mr. Roosevelt whether he would object if the steel trust gobbled up the Tennessee Coal and Iron Company, which was the trust's principal competitor. It was reported at the time that Mr. Roosevelt gave the steel trust permission to forge this additional link in the monopoly chain. This report is now fully confirmed. Mr. Roosevelt admits that he gave his approval to this unholy combination. He claims he did it in order to stop a further spread of the republican panic and that, in any event, it was a legal transaction. Let us analyze this: If the deal was legitimate and violated no law, why did the steel trust need the president's approval. What did the president have to do with a legitimate transaction between these two concerns?

ALLEGING that her husband, William F. Erny, a rich farmer of Pine Township, near Pittsburg, Pa., had not, to her knowledge and belief, taken a bath in the entire eleven years she had been married to him, Mrs. Mary Erny obtained a divorce from him. The defendant in the case could doubtless have stopped the suit by taking a wash, but rather than do so he allowed it to go by default. Shortly after the close of the civil war a young man of this city was arrested for a misdemeanor and taken before the late Hugh Latham, who was mayor at the time. The prisoner throughout life had been as much averse to the use of soap and water as an anarchist, and the mayor gave him the choice of taking a first-class wash or to serve a term in jail. The young man said he preferred the lockup to an ablution.

MR. TAFT in his speech at the banquet of the Chicago Association of Commerce on Wednesday called attention to the system adopted in the Philippine Islands by which a judge is refused his monthly salary unless he can file a certificate with his receipt setting forth that he has disposed of all the business submitted to him within the previous 60 days. It would be well if the same system prevailed in the United States. The law's delay has been a crying evil for many years. Dickens in his "Bleak House" shows how a suit was kept in court until a large estate was eaten up in costs, and in the preface to the book calls attention to suits that were kept on the dockets of English courts for fifty years.

MRS. NORMAN E. MACK, wife of the chairman of the democratic national committee, who was in Chicago yesterday said:

A few years ago one could buy a very fine hat for $25. Now you're lucky if you can get a wing for that. This is because of the trusts. They affect every bit of our lives, from chewing gum to gloves.

From Washington.

Correspondence of the Alexandria Gazette.

Washington, Oct. 9.

Secretary Root has cancelled his campaign speaking dates with the exception of one address to be delivered in New York on the night of the 31st. The reason given at the republicans is that Mr. Root's duties as Secretary of State owing to the Bulgaria-Turkey situation have become too pressing to allow him to fill his other engagements.

James H. Wilkerson, attached to the office of District Attorney Sims, at Chicago, has been tendered and has declined the position of Assistant Attorney General of the Department of Justice in which Cooley resigned.

Testifying in his own behalf before the army retiring board today, Col. W. F. Stewart asserted the very next day after the surgeons at Fort Huachuca had pronounced him unable to undergo the 90 mile riding test he went out on horseback in company with Maj. Foster, Lieut. Parker and Chaplain Chase of the Fifth cavalry. He added that for some time after that he rode every afternoon in company with Chaplain Chase from 8 to 14 miles. On one occasion they went 5 1-2 miles from the post, and covered the return trip in 25 minutes, walking their horses the last mile in order to let them cool off. The Colonel stated that he had been in the service 41 years, ten months and nine days. So far as he knew, only four officers now on the active list have exceeded this record. Speaking of his health, Col. Stewart said: "In 1868 I was examined for insurance, was found to be in good condition, and was allowed to take out a policy for $10,000. I first learned of an affection of my heart in 1874, when, suffering from a cold, my lungs were examined. I was then told that I had mitral trouble. I was treated for this at the presido, San Francisco, until April, 1875.

*** "I have never felt any incapacity, however, and have always performed the duties assigned to me without complaint of any kind from my superior officers." Attorney Latimer, counsel for Col. Stewart, asked him as to the circumstances of his transfer from Fort Barnecas, Fla., to Fort Grant, Arz. This was objected to by Capt. Nowland, recorder of the board, as being irrelevant. Mr. Latimer insisted that the colonel's answer might throw important light upon the questions at issue, and the board then went into secret session to decide whether to permit the Colonel to testify along this line. The question as to whether Col. Stewart shall be allowed to testify as to the reasons for his transfer from Fort Barancas, Fla., to Fort Grant, Arz., was decided in the negative by the board. Continuing his testimony, Col. Stewart said that he had been in the habit of riding anywhere from 20 to 35 miles a day both in Maine and in Florida and never had felt any ill effects. Dr. William M. Sprigg, the local physician who examined Col. Stewart a few days a ago, was not called for the defense, because of the board's refusal to pay a portion of his fee as an expert witness. Col. Stewart explained that he was unable financially to assume the entire amount. The case of Col. Stewart was closed this afternoon with a brief address by Recorder Howland. It is expected that the board will recommend retirement.

Gen Ira C. Abbott, 84 years old, of the Pension Bureau, died today.

Assistant Secretary Pierce of the Interior Department and Judge Woodruff, his assistant attorney general, conferred with the president this afternoon relative to the department's attitude towards pipeline leases for oil and gas in Indian territory. They went over the correspondence of the department with particular reference to the controversy which has arisen over the alleged granting of special concessions to the Prairie Oil and Gas Company, a Standard Oil subsidiary concern.

The American Fleet.

Manila, Oct. 9.—The American fleet is today in readiness to sail for Yokahama tomorrow. It was Admiral Sperry's original intention to sail this evening, but he decided on a postponement. While on the cruise to Japanese waters, Admiral Sperry will consider the testimony in the court martial of Lieutenant Frank T. Evans, who was charged with absenting himself from duty, drunkenness and discreetful language to his superior officers. No inkling has been given as to the decision but the impression prevails that Evans will be guilty on at least one of the charges and punished.

New York Stock Market.

New York, Oct. 9.—The disturbing character of European news and lower London quotations caused decided weakness at the opening of the stock market here, first sales being at 1 to 3 points below yesterday's close. Arbitrage brokers state that London sold over 100,000 shares in the first hour this morning. There was heavy liquidation here during the first hour which helped along the downward movement. Just before 11 o'clock heavy buying set in and later nearly all the early losses were recovered.

News of the Day.

Judge Pike, of Reno, Nev., has refused to grant a divorce to Virginia Harned, the wife of E H. Sothern.

The main building of the Caldwell Hotel, a frame structure situated one mile east of the White Sulphur Springs was destroyed by fire yesterday.

The proposed arbitration treaty between China and the United States has been signed at the State Department, Wu Ting-fang, the Chinese minister, acting on behalf of the Chinese government.

Colonel William F. Stewart appeared before a retiring board in Washington, yesterday which refused to summon witnesses for him or allow him to take the army test ride.

Refused divorce from one wife and deserted by another, all in the same day, Bostwick Parker, sixty-five years old, a civil war veteran, killed himself at Warred, Ohio, yesterday after setting fire to his home.

Forest fires in the Adirondacks again assumed alarming proportions. A big force of men were sent to protect Dr. W. Stewart Webb's estate and that of William Rockefeller was threatened.

Comptroller of the Currency Murray has announced that he will put into immediate action a plan for the formation of 11 districts of national bank examiners with a chairman examiner in charge of each.

If one of the sideshows at the state fair at Richmond had advertised that its patrons would see a man kill a horse with his bare hands it is probable that the tent would have been crowded, yet this is what a great throng of people on the Hermitage road did see yesterday evening when a husky farmer captured a runaway horse by plunging through the crowd of women and children, and choked it to death by a powerful grip on the nose and throat. The animal became frightened at an automobile. Dashing through the crowd, it spread terror among the people, a number of whom were barely able to spring from its path in time to avoid being run over. The man who probably saved the lives of many people stepped back into the crowd and disappeared after he had killed the horse.

IN MEMORIAM.

In sad, but loving remembrance of EMMA R. GOEBEL, who died October 9, 1907—one year ago today.

In the graveyard softly sleeping,
Where the flowers gently wave,
Lies the one I love so dearly
In her lonely, silent grave.
You are not forgotten, dear daughter,
Nor will you ever be,
As long as life and memory lasts
I will remember thee.
All is dark within my dwelling,
Lonely is my heart today,
For the one I loved so dearly
Has forever passed away.

By her loving mother, VIRGINIA GOEBEL.

Today's Telegraphic News

The War Cloud Spreading.

Vienna, Oct. 9.—The Turkish fort at Constantinople has fired on a vessel in the Bosphorus flying the New Bulgarian flag, according to a message just received here.

Servia is retaliating for Austria's occupation of the Austro-Servian frontier by seizing the roads and bridges on the Bosnian border, where Austria is as yet unprepared to offer resistance. Field Marshal Oscar Potiorek has been appointed commander of the Austrian army.

Belgrade, Oct 9.—All army reservists were today ordered to join colors Sunday and a declaration of war against Austria will probably be made then. The whole of Servia is clamoring for war with Austria and King Peter, who recognizes the imminency of the disruption of his kingdom in the event of a war, seems powerless to restain his people. The mobilization of troops is being carried on amid scenes of the wildest enthusiasm. Mothers are offering their children to the recruiting stations and men and women of wealth are contributing money and jewelry to swell the war fund. England has advised Servia to move with the greatest caution, and Germany has gone further and warned the country that it is threatened with extinction in a war with Austria, but none of this retards the warlike spirit.

Not even the presence of Austrian warships in the Danube, close to Belgrade, dampens the enthusiasm. Not only the public but the Servian press is demanding a declaration of war and King Peter's delay will undoubtedly lose him his crown if not his life. The Crown Prince of Servia announces that he will lead an army into Bosnia and the Prince of Montenegro sends word that he will join in the war on Austria.

London, Oct. 9.—England gave her first tangible evidence today of supporting Turkey by ordering the battleships Glory and Prince of Wales and the cruisers Diana and Lancaster to proceed at once from Malta to the island of Lemnos, which is in the Grecian archipelago and belongs to Turkey.

England has given up hope of averting a war in the Balkans and the commencement of actual hostilities between Servia and Austria-Hungary is momentarily expected.

The British press today hints that the breaking of the present alingment in the Balkan would be the cue for England to annex Egypt, over which she has long held a suserainty.

The stock market is taking a more serious view of the war outlook and today's liquidation of stocks was the heaviest for a long time. Stocks have fallen an average of a point and foreign securities are correspondingly weak.

St. Petersburg, Oct. 9 —Fearful that Austria intends to take advantage of the connection in Servia to strike the boldest blow of all (the annexation of Servia) the czar has ordered the mobilization of the Black Sea fleet.

It is rumored here that Bulgaria, acting in conjunction with Austria, will seize a part of Macedonia.

Paris, Oct. 9 —Germany will not oppose the principle of the proposed international conference and Italy has signified her full sympathy was the information given out today by the foreign office. England has reserved her official answer until after Premier Asquith, Foreign Minister Grey and M. Iswolsky, Russia's foreign minister, have held a conference.

London, Oct. 9.—Lloyds are today charging 20 per cent. for a month's insurance against an Austro-Servian war. The admiralty admits that the British warships were dispatched to the Aegean sea to "watch events."

Constantinople, Oct. 9.—Turkey's flagging hopes were revived today by an announcement from the British, French and Russian ambassadors to the Porte that any modification of the Berlin treaty must have the consent of the signatories before it becomes operative. Turkey considers this statement as evidence of support in case the conference develops a hitch.

New York, Oct. 9.—Reassuring cables in regard to the European situation were received today by Kuhn, Loeb & Co., one from a person high in diplomatic life, the other from a leading financial house. The first read as follows: "It does not look to me as if any serious complications would arise." The second message also stated the sender believes that there is no cause for anxiety.

The Erb Affair.

Philadelphia, Pa., Oct. 9.—Efforts are being made today by political friends of Captain Erb to prove that there was a conspiracy on the part of Mrs. Erb and her sister, Mrs. Beisel, to murder him by poison. Failing in this attempt to take the captain's life led to repeated quarrels, and, finally, the women decided that he should be shot to death. That is the theory on which detectives are now working.

It has become known that Mrs. Erb was to obtain a sum of money not to contrast the divorce suit brought by her husband and the domestic troubles of the couple would have been settled Wednesday morning. George O. Hortwitz, counsel for Captain Erb, cautioned him not to return to his country home Tuesday night for fear that trouble might arise through the interference of Mrs. Beisel. It is said that Mrs. Beisel attempted to influence her sister against an amicable settlement and hold out the hope that she could get more than the $25,000 which had been settled on as an alimony allowance.

In the quarrel that followed Erb's resentment of Mrs. Beisel's interference it is the contention of some of these political friends that Mrs. Beisel was handed the revolver by Mrs. Erb. They hope to prove that the captain was not the aggressor in the quarrel which led to his death, but that the women were. Mrs. Erb's counsel this afternoon will make an attempt to secure her release on a writ of habeas corpus.

Republicans Alarmed.

Columbus, O., Oct. 9.—Alarmed by political conditions in Ohio, the republican state committee has claimed the services of W. H. Taft for a three days trip through the state. Governor Harris, a candidate for re-election and strong with the rural vote, on account of his temperance record, will accompany the presidential candidate. The itinerary as announced by the state committee, involves 28 set speeches from the morning of Monday, Oct. 12, until the evening of the 14th, when Taft leaves the state for Wheeling, W. Va., where a night meeting will be held.

Strike Ended.

New York, Oct. 9—The New York Taxicab Company, against which chauffeurs have been waging a strike, resumed its regular service today with a force composed of about an even number of strike breakers and turned strikers in charge of the cars. It is believed the strike is nearly broken.

Magistrate Steinert before whom the two "special officers" of the company, charged with having caused the death yesterday of 14-year-old Robert Qualley, were arraigned, scored the taxicab company for hiring such and the police department for permitting them to carry weapons. "It is an outrage," he said in court, "that such men should be allowed to carry weapons by Comoissioner Bingham. These so-called special officers are usually ruffians out of work who would take a life for $2."

Crew Rescued.

New York, Oct. 9.—Captain Charles F. Hines, and the seven men of the crew of the wrecked American schooner John A. Matheson, of Baltimore, arrived here today on the steamer Seminole from San Domingo which picked the men up at sea after they had floated about in an open boat for four days. The schooner was caught in the West Indian hurricane on September 10, while bound for Fortune Island with a cargo of general merchandise. The gale lasted three days, increasing in violence until it carried away the schooner's masts and all but the smallest of her boats were smashed.

CHICAGO THE VICTOR.

"Chicago, 4; New York, 2." This was the tale in a phrase told at the end of the most decisive ball game played in this country in many years; played at the Polo Ground in New York yesterday, to decide the National League championship for the season of 1908. In the presence of a record-breaking crowd, which swamped the grounds and left many thousands outside long before the game began, a game was played in deadly earnest—"straight baseball with no frills"—to settle as tensely dramatic a contest as the most ardent lover of the sport could imagine. Chicago won and New York lost. The game was played in the cheerful sunshine of an ideal baseball day before a vast concourse of people who carried with them to the Polo Grounds the pentup enthusiasm, hopes, and fears accumulated day by day in the closing weeks of a season's fight for a National League pennant which had been absolutely unprecedented for constantly intensifying interest and uncertainly. At dusk the great multitude departed from the historic inclosure—hushed and disappointed. The pennant does not wave above the skyscrapers. Mathewson was nearly knocked out of the box in the third inning, while Brown held the New York team safe at all times.

WORLD'S SERIES SCHEDULE.

The series between the Chicago, who won the pennant of the National League yesterday afternoon, and the Detroit team for the world's championship will begin in Detroit on Saturday. Six games were arranged by the National Commission, in session in Cincinnati yesterday and the second, the Sunday game, will be played in Chicago. The schedule follows:

Saturday, October 10, at Detroit.
Sunday, October 11, at Chicago.
Monday, October 12, at Chicago.
Tuesday, October 13, at Detroit.
Wednesday, October 14, at Detroit.
Thursday, October 15, at Chicago.

The seventh game, if one is necessary, will be decided by lot.

Deepwater Conventions.

William Jennings Bryan and Gifford Pinchot, chief forester of the Department of Agriculture, had the honor places on yesterday's programme of the Convention of the Lakes to the Gulf Deep Waterways Association held in Chicago. The morning address was delivered by the Nebraskan, and Mr. Pinchot was on the afternoon programme. Routine business was taken up when the convention was called to order at 10 o'clock. David B. Francis, former governor of Missouri, introduced Bryan, who was heartily cheered as he began to speak.

After this address, the convention adjourned until afternoon. Immediately after the preliminary business, the chairman announced that James J. Hill, of the Great Northern Railway, had written an address in expectation of speaking, but had been unable to attend. Congressman Rainey of Illinois read the address. The afternoon session was called to order at two p. m. and the chairman immediately introduced Gifford Pinchot, chief forester of the Department of Agriculture, who delivered an address on "Waterways and the conservation movement."

Speakers from each state were called upon to make ten minute talks on the deepwaterways movement.

Chicago, Oct. 9 —Theodore P. Shonts, president of the Chicago and Alton Railroad, was the principal speaker before the last days session of the Lakes to the Gulf Deepwaterways Association Convention today. John A. Ockerson, of St Louis, a member of the Mississippi River Commission and official delegate of the United States to the International Congress of Navigation recently held in St Petersburg, also addressed the convention.

New Orleans was selected as the next convention city.

HE WANTS REST.

The following advertisement in the want columns of a Richmond paper was published yesterday by Captain John Cussons, an extremely earnest gentleman, who has been much imposed upon:

"The undersigned has abandoned the development of 'Glen Allen' and has nothing to sell. He doesn't want to buy anything, either, or to get his life insured, or a well dug, or lightning rods put up; and he doesn't need any washboards or corn-shellers or cakes of soap or cookery books; neither is he pining for society, but has given up the entertainment of tramps and agents and evangelists and free-lunch pilgrims in the guise of land buyers.

"What he really wants is a rest, and he'll be d— if he wont have it.—John Cussons, Forest Lodge, Glen Allen, Virginia."

The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. BOY RACER KILLED.

Thrown from his motorcycle, which was proceeding at a rate of 45 miles an hour over the mile course at Burke's Station, Va., yesterday afternoon, James Conway, 18 years old, of 1009 Ninth street northwest, Washington, a clerk in the patent office and a grandson of Dr. D. B. Street, received injuries which resulted in his death at Emergency Hospital shortly after 7 o'clock last night. Conway was carried to Washington on a special train, which was met at Eighth street and Maryland avenue southwest by the Emergency Hospital ambulance, Dr. McCay in charge. Conway, while not a professional racer, was an enthusiastic motorcyclist. The injuried boy was hurried to the hospital, where it was found that he had sustained a compound fracture of the skull. Preparations for an operation were made, but the young man died before the physicians had a chance to begin work upon him. The races were run in connection with the Fairfax county fair, and were the principal events for the day. Eight contestants were in the 10-mile event, the third and last race of the day. Conway had ridden in the other two, and in each he finished in third position. Determined to make a better showing in the long-distance race, the young man, who had a ten-second lead over his nearest competitor, shot out in front and made the pace.

He was overtaken in the third lap by W. B. Gennella, jr. of the Cameron apartment house. Gennella and Conway were some distance in front of the other riders, and when the seventh lap had been turned the oil clogged in Gennella's machine. Taking advantage of this, Conway opened the cylinder on his wheel and as he passed Gennella looked back and smiled. Conway was making the far turn, in front by himself, and it was evident he did not consider it necessary to take the inside. This mistake cost him his life. Keeping over toward the outside poles, his machine cut into the soft turf. The rear wheel skidded, throwing its rider against a pole. His head and shoulder struck the obstruction squarely, rendering him unconscious. Physicians were called and it was decided to rush the boy to Washington, with all possible haste. Many Alexandrians witnessed the sad accident.

MEN'S MISSION CONFERENCE.

Rev. D. Clay Lilly, D. D., who will speak at the Sunday night and Monday night meetings of the Men's Missionary Conference in the Second Presbyterian Church, is a man in an unique position. More than a year ago he made an address at the meeting of the General Assembly of the Presbyterian Church in Birmingham, Ala., and his address was such a remarkably able one, and one that made such a deep impression, that a layman and business man present called on Dr. Lilly to give up his large and flourishing church at Winston, N. C., and at this man's expense give his entire time to going all through the south delivering this address, and Dr. Lilly finally agreed to do so. It is this address that he will give at the Sunday night meeting of the conference and the men of Alexandria will be given this opportunity of hearing him.

SWING BREAKS WITH TWO.

Dr. John Thomas, physician to the school, and Dr. William C. Gwynn, of 3836 O street northwest, were hurriedly summoned by Miss Chase, principal of the building, and the children's injuries were dressed.

FELL OVERBOARD.

A party of gentlemen went down the river yesterday as the guests of Admiral Caimes on the yacht Augusta to enjoy an oyster roast. The oysters were of a fine variety and were much enjoyed. After passing the day safely the party returned home and on alighting from the yacht a guest lost his balance and fell in the river at the foot of Prince street. A heroic rescue followed and the gentleman in question was saved from a watery grave.

THIEVES TAKE CLOTHING.

Mr. J. B. Padgett, freight agent of the Washington, Alexandria, and Mount Vernon Railway Company, reported to the Washington police yesterday that the office of the company, located at Thirteenth-and-a-half and O streets southwest, Washington, had been broken into Wednesday night and several articles of wearing apparel stolen. Detectives were assigned to the case, but at a late hour last night no arrests had been made.

U. D. C.

A very interesting meeting of Mary Custis Lee Chapter, U. D. C., was held in the Confederate Veterans' building, Tuesday afternoon. Business of interest to the chapter was transacted; subjects of vital importance to the welfare of the association in the state were thoroughly and intelligently discussed and matters concerning the entire organization of the U. D. C. received profound consideration. The handsome new piano, recently purchased by the junior daughters and by them presented to R. E. Lee Camp, was received with much pleasure; and the action of these younger people heartily concurred in. This magnificent instrument is an ornament to the rooms as well as a necessary adjunct to the success of the many historical, literary, benevolent and social entertainments to be given in this beautiful building. Donations were made to the Shiloh Monument fund; the Virginia room in the Confederate Museum at Richmond; the state president's expense fund to U. D. C. convention in Atlanta; and other contributions to worthy objects, promised in the future. Altogether the chapter is in first class condition, and feels justly proud of its good work. The following delegates were elected to represent the chapter at Manassas next week, where the annual meeting of the Virginia Division, U. D. C., will be held: Mrs. Philip T. Yeatman, Mrs. Dabney Herndon, Mrs. James E. Alexander, Mrs. Owen S. Willey, of Washington; Mrs. Edwin H. O'Brien. Alternates, Miss Mary Lee Lloyd, Miss Ada H. Garrett, Mrs. D. J. Howell, Miss Edna H. Alexander, Miss L. J. Zimmerman.

PAINFULLY HURT.

While Mr. R. Bruce Emerson was operating a machine at the Emerson Steam Pump Works, late yesterday afternoon, the forefinger of his right hand was caught in the cogwheels and almost severed. After Dr. S. B. Moore had dressed his injury Mr. Emerson went to his home in Washington. The remarkable nerve displayed by Mr. Emerson in directing the men what to do in order to release his hand excited the admiration of those who witnessed the accident.

ORDERED TO BE DESTROYED.

As was stated in the Gazette, Constable A. J. Payne, of Fairfax county, captured a ducking gun of unlawful calibre at the Dyke a few days ago. The gun, which was about seven feet long, was taken before Justice Wright on Wednesday who ordered it to be destroyed at once. The fowling piece was subsequently turned over to a blacksmith who proceeded to cut it up.

IMPORTANT CASE.

Tomorrow at 10 o'clock an important case will be heard before U S. Commissioner R. P. W. Garnett when George W. Burgess of Broad Run, Fauquier county, will be tried for violation of the postal laws in sending a scurrilous post card to Mrs. Ellen Sanders, of New Baltimore. Mr. Burgess will be represented by Judge Charles E. Nicol, of Prince William county and Mr. Robert A. McIntyre, of Warrenton.

MASS MEETING OF BOYS AND GIRLS.

At the Second Presbyterian Church Sunday afternoon Rev. Motte Martin will tell of some of his strange experiences with strange men and strange animals in a strange land—Africa. Mr. Martin has a peculiar gift in speaking to children, and makes a lasting impression on all who hear him. He has been before African kings, has seen ferocious wild animals, and once had to run three days to escape with his life from the savages who pursued him. He was on the steamer Lapsley which sank on the Congo some years ago, when an Alexandria boy, Mr. Henry Slaymaker, was drowned. The church doors will be opened to children at 2 o'clock, and to both grown and young people at 2.15 on Sunday afternoon, and the address will begin promptly at 2:30. The public is invited. There is little doubt but that the church will be crowded, as most all the Sunday schools in the city will turn out to hear the young missionary. Mr. Martin himself has a Sunday school in Africa with about 2000 little blacks who attend. He knows them all by name.

REINICKER LECTURES.

The first course of Reinicker lectures for the present session was delivered by Dr. Frederick J. Bliss, of Beyrout, Syria, at the Episcopal Seminary, near this city, on Monday, Wednesday and Friday (today) of this week. The subject was "Explorations in Palestine." Dr. Bliss was for many years president of the well-known Protestant College at Beyrout, which has been such a centre for higher educations in Syria. Dr. Bliss who is now delivering lectures in this country was connected for ten or twelve years with the Palestine Exploration Society of England, and conducted explorations of great importance himself at Jerusalem and Lachish which he described with much interest. The lecture on Wednesday was accompanied by stereopticon views which illustrated much of Dr. Bliss's work of exploration.

DEATH ON SEMINARY HILL.

Mr. Albert Lockhart, a well known and respected resident of Seminary Hill, died last night about eight o'clock after an illness of several months' duration. He and his family had recently removed from their home at Howardsville to "Vauxcleuse" to take care of the house for the winter during the residence of Mr. Andrews and his family at their home in Washington. Mr. Lockhart was a native of Croydon, near London, England, and settled near the Seminary years ago. He leaves a widow, who is a sister of Mr. John Pugh, and two children. The funeral will take place at the Chapel of the Holy Spirit, Howardsville, at 10 o'clock tomorrow morning, the services being conducted by Rev. S. A. Wallis, of the Seminary, and the interment will be in Ivy Hill Cemetery.

MODEL ABATTOIRS

Consul-General A. W. Thackara writes that all animals intended for food purposes in the city of Berlin must by German law and municipal and police regulations be slaughtered in the municipal abattoirs under the strictest police and veterinary surveillance. Mr. Thackara describes their operation as follows:

Only the most humane methods of killing the animals are permitted to be used, and the utmost attention must be paid to cleanliness and to the prevention of infection in all the various operations. The Berlin abattoirs located in the northern part of the city, was built in 1881 at a cost of over $4,250,000, and covers an area of nearly 115 acres. It is regarded as one of the model institutions of its kind in Germany, one in which the most modern hygienic methods are used.

The abattoir is divided into two sections—the cattle market and railway station on the east and the slaughteryards and houses on the west. In the cattle market section there are sheep, cattle, and hog stalls, the exchange, various sheds in which the cattle are sold, sheds for isolating animals which are either infected or are under suspicion, disinfecting plant, etc. In the railway station there are various tracks and platforms, where four cattle trains of 59 cars each may be unloaded or loaded simutaneously.

The slaughter yards contain the police slaughterhouse, where animals which are ill or suspected and have been rejected by the veterinary officials are killed by the police butchers under the direction of the veterinaries; a hall for the sale of meat, three cattle slaughterhouses, administration buildings for the officials of the abattior and for the veterinary surgeons, etc., pathological museum, and the municipal meat-examination department. There are, further, an institution for the preparation of lymph, slaughterhouses for calves and sheep, with the necessary stalls for small animals; cooking and sterilizing department, kitchens for trying out fat and making tallow, albumen factory, plant for making margarine, one for cleaning bristles, etc. In the section for killing hogs there are three hog yards with room for 10,000 hogs, five slaughterhouses, boilerhouse, cold-storage plant, a building for the microscopic examination of meat, etc.

For Chronic Diarrhoea.

"While in the army in 1863 I was taken with chronic diarrhoea," says George M. Felton of South Gibson, Pa. "I have since tried many remedies but without any permanent relief, until Mr. A. W. Miles, of this place, persuaded me to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, one bottle of which stopped it at once." For sale by W. F. Creighton & Company and Richard Gibson.
